Delhi
Retina Meet
2019

24-25 AUGUST 2019

HYATT REGENCY, NEW DELHI, INDIA

Invitation

Dear Retinologist,

Welcome to Delhi Retina Meet 2019. It is a great pleasure and honor to invite you to our **Fourth National Meeting**.

Delhi Retina Forum and its meetings have been focused on sharing new ideas, clinical experiences, surgical challenges and technological updates. Sticking to the discussion format and encouraging youngest retinologists to present their queries to the experienced ones have been our USP and same has brought so much applause and blessings for DRF. We thank all of you for your contributions.

The highlights of DRM 2019 would be Courses and Sessions on Myopic Tractional Maculopathy by **Dr. Barbara Parolini, Italy**, Complex Diabetic Surgeries by **Dr. Hasan Mortada, Egypt** and Exploring Imaging of PCV and other interesting disorders by **Dr. Lim Tock Han, Singapore**.

We also have an exclusive work shop on "Autologous RPE-Choroid Transplant" by **Barbara Parolini on Saturday, August 24th**. She has tremendous experience on the subject and would be sharing step by step surgical approach for this surgical technique which many of us are already planning to add to our armamentarium. Work shop, like earlier years shall give a great opportunity to registered delegates for having one to one interaction with the Instructor.

We urge all of you to come loaded with your questions and knowledge and puzzles and tips to make it a great academic feast once again.

Looking forward to join all of you at your own DRM 2019!
